MESSAGE FROM THE EXECUTIVE DIRECTOR

The Annual Report of the Reproductive Health Network Kenya (RHNK) for 2022 reflects a year of significant achievements and ongoing challenges in the field of sexual and reproductive health in Kenya. RHNK Secretariat, with support from the Board of Directors and its network members, has worked diligently to promote and protect sexual and reproductive health rights in Kenya.

Through improved access to family planning services, STI prevention and treatment, comprehensive sexuality education, and safe abortion care, the network has made a positive impact on individuals' lives. However, limited resources, societal stigma, and policy gaps continue to impede progress. The organization remains committed to addressing these challenges through advocacy, research, and collaboration with key stakeholders. With optimism and determination, the network plans to expand its reach, strengthen partnerships, and leverage technology to ensure comprehensive and rights-based sexual and reproductive healthcare for all.

The achievements outlined in the report are attributed to the unwavering support and dedication of donors, partners, staff, and volunteers. Their belief in the organisation's mission has been instrumental in driving success. The Annual Report expresses deep gratitude to all who have contributed to the Reproductive Health Network Kenya. The continued support of stakeholders will play a crucial role in advancing the network's vision and mission.

Nelly Munyasia,
Executive Director, Reproductive Health Network Kenya (RHNK)
Reproductive Health Network Kenya (RHNK) was founded under the Society’s Act in 2010. RHNK is a network of trained healthcare providers who are committed to provision of comprehensive SRHR to All through strategic partnerships, collaborations and advocacy. The RHNK network of young people in all their diversity are centred in the organizational structure providing leadership, programming and meaningful engagement of the adolescent and youth in its work. The network has over 600 trained healthcare providers who include gynaecologists, doctors, nurses, midwives and clinical officers in 43 counties. RHNK also has a wing of over 200 trained youth advocates drawn from various counties in Kenya.

**OUR VISION:**

The vision of RHNK is to create “a healthy society with comprehensive reproductive health services.”

**OUR MISSION:**

The mission of RHNK is “to provide evidence-based information and quality comprehensive reproductive health services in Kenya through strategic partnerships and capacity building.”
OUR IMPACT:
HIGHLIGHTS OF THE YEAR 2022

IMPACTED OVER 217,000 WOMEN AND GIRLS through SRHR service delivery and programming

173,623 FAMILY PLANNING

23,722 ABORTION CARE

14,234 CLIENTS accessed family planning post procedure services from RHNK network providers

3,340 CLIENTS SERVED THROUGH COMMUNITY OUTREACHES

18,700 DMPA–SC doses distributed to all RHNK network healthcare providers to boost service delivery to women and girls

2,401 CLIENTS accessed SRHR services from RHNK youth friendly model facility

274 CLIENTS served during in reaches conducted at RHNK youth friendly model facility through

10,834 CLIENTS served during SRHR humanitarian response in Isiolo, Kilifi and Samburu counties

conference was convened which brought together over 450 SRHR stakeholders and delegates from across the region |
| **RHNK AGM** |
was conducted which saw new board members elected into office, who were trained and successfully inducted into office |
PROGRAMS AND ACTIVITIES: HIGHLIGHTS OF THE YEAR 2022

**Service Delivery**

Background
RHNK through its pool of trained healthcare providers, offer SRH information and services including comprehensive abortion care across the country. RHNK also conducts facility clinical and legal compliance audits, support supervision and facility assessment to enhance quality of care.

Achievements
- Provided contraceptives to 173,632 clients (31,631 IUCD; 60,146 implants; 15,387 male condoms; 16,658 COC pills; 28,987 Sayana Press; and 20,839 three month injectables)
- Provided abortion services to 23,722 clients (13,556 medical abortion and 10,166 surgical abortion)
- Provided post-procedure contraceptives to 16,389 clients

Lessons Learnt
- Continuous support supervision, training and mentorship key to improving service delivery
- There is need for SRHR commodity support
- Majority of clients prefer self-managed SRHR interventions

**Advocacy**

Background
RHNK engages in SRHR advocacy work at both the grassroots, county and national level. RHNK conducts training of network providers and other stakeholders who participate in national and county SRH technical working groups for policy formulation and dissemination and in budget advocacy SRH services.

Achievements
- Trained over 20 county health management teams, 7 members of county assembly and 14 cross-generational spokespersons as SRHR champions
- Over 40 network providers trained as SRHR advocates
- Member of MOH technical working groups i.e. Self-care, total market approach and FP commodity tracking (KEMSA)

Lessons Learnt
- Collaborations with like-minded stakeholders including the government, utilisation of evidence, grassroots, media, youth and faith-based organizations engagement and continuous training of advocates are key strategies for advocacy

**Youth Friendly Model Facility**

Background
RHNK runs a model facility (REHNET Medical Centre) that offers high quality youth friendly SRH services. The facility is located in Nairobi County, Embakasi Sub-county. REHNET takes into consideration the health of the needy and poor in the society, and offers access to affordable health services. It collaborates with MOH, CHVs and TIKO/Triggerize.

Achievements
- REHNET created a youth hub, a safe space where adolescents and young people engage in SRHR conversations
- REHNET conducted monthly in-reaches where clients accessed services at subsidised rates
- REHNET served over 5000 clients, 85% of whom were young people

Lessons Learnt
- Youth centred approach create a welcoming and non-stigmatising environment for AYSRH information and service provision
- Meaningful engagement of CHVs increase SRH service uptake by promoting accessibility, education and advocacy
PROGRAMS AND ACTIVITIES: HIGHLIGHTS OF THE YEAR 2022

Review of 2016–2021 Strategy

Background
For the previous planning period, RHNK’s focus was underpinned on three strategic directions i.e. developing and sustaining positive branding and organizational image, building organizational capacity to implement projects beyond abortion services and strengthening internal governance capacity to support its network programs.

Achievements
- Developed 2022–2027 strategic plan with six areas of focus i.e. service delivery, advocacy, adolescent and youth engagement, evidence and research, movement building and gender equality at the workplace
- Developed organizational theory of change
- Developed costed implementation plan and risk analysis matrix

Lessons Learnt
- Need for continuous capacity building and mentorship of network service providers and youth advocates
- To improve resource mobilization, effective governance and prudent management and accountability is key

5th AYSRHR Scientific Conference

Background
RHNK convened its 5th Annual Scientific Conference on Adolescent and Youth Sexual Reproductive Health and Rights (AYSRHR) whose theme was ‘Advancing AYSRHR in a Pandemic’. The conference was held at Sarova White Sands Hotel in Mombasa County, on 21st to 24th June 2022. The conference attracted both virtual and physical delegates.

Achievements
- The conference attracted over 450 delegates from across the region
- Presentations included 45 oral abstracts, 39 poster abstracts, 8 panel discussion sessions and 3 side events
- Partners committed to support the domestication of SRHR self-care guidelines in Kenya

Lessons Learnt
- Need for collaborations and partnerships among SRHR stakeholders to solve SRHR challenges faced by adolescents and young people

Celebration of Women in Leadership

Background
RHNK in collaboration with FIDA-K and other partners organized a celebration (Cocktail dinner) on 20th July 2022 in honour of Dr. Anne Kihara who has been elected to the helm of leadership in International Federation of Gynaecology and Obstetrics (FIGO).

Achievements
- Convened SRHR stakeholders in Kenya drawn from government agencies, civil society organizations, development partners, academia, health professional associations and women legislators
- Key SRHR challenges faced by women and girls outlined
- RHNK selected as SRHR movement convener

Lessons Learnt
- Convening a multi-sectoral movement offers an opportunity to address regression and advance sexual and reproductive health and rights in Kenya
Programs and Activities: Highlights of the Year 2022

Youth Engagement Activities

**Background**
Adolescents and young people bear the burden of poor SRH outcomes. The prevalence of teen pregnancy, HIV, unsafe abortion, SGBV, FGM and child marriage is high in some parts of Kenya. RHNK through its youth network provides technical leadership and support to the organization on adolescents and youth programming and implementation.

**Achievements**
- Conducted over 20 community dialogues, reaching 11,451 people with SRH information and 12,938 youths both in and out school with comprehensive sexuality education
- 47 opinion articles published on local newspapers
- Conducted 3 in-reaches at RHNK youth friendly center where 2,401 clients were served

**Lessons Learnt**
- Need to strengthen youth capacity in article writing
- Need for training of youth peer providers on safe abortion and contraceptives for value clarification and provision of accurate information in the community

SRHR in Humanitarian Setting

**Background**
Through the support of IPPF, RHNK responded to communities affected by hunger crisis due to rainfall failure for a third consecutive rainfall season in Kilifi, Samburu and Isiolo counties by providing essential SRH needs between August 2022 to November 2022. The response involved implementation of MISP for SRH in crisis situations.

**Achievements**
- Stakeholders in 3 counties sensitized on MISP and coordination mechanism setup
- Developed SRHR referral pathways in 3 counties
- Conducted integrated SRH outreaches in different regions of Kilifi, Samburu and Isiolo where 10,834 received SRH services

**Lessons Learnt**
- Working closely with food distribution agencies increases reach
- Working with local administration for coordination and security is key
- Working with community opinion leaders reduces societal stigma and creates buy-in

National Self-Care Network Lead

**Background**
In January 2022, RHNK was selected as the National Self-Care Network Lead in Kenya by Self-Care Trailblazer Group (SCTG) to spearhead the domestication of WHO SRH self-care guidelines in the country. Together with other stakeholders, RHNK supported the Ministry of Health in ideation, drafting, finalizing and validation of the SRH self-care guidelines.

**Achievements**
- Mapped and engaged SRHR self-care taskforce members
- SRHR self-care policy landscape analyzed in Kenya
- Supported MOH led self-care domestication workshops
- National Reproductive Health Self-Care Guidelines developed and validated

**Lessons Learnt**
- Upscaling sensitization activities and multi-sectorial collaboration promotes advancement of self-care concept
- Working closely with Ministry of Health in policy domestication creates goodwill at national and county level
PROGRAMS AND ACTIVITIES: HIGHLIGHTS OF THE YEAR 2022

SRHR and Gender Equality

Background
RHNK in collaboration with Federation of Kenya Employers (FKE) implements a project that mainstreams SRHR and Gender Equality (GE) at the workplace by creating inclusive, supportive and equitable environments for all through policy advocacy, awareness creation and trainings, employee support and encouraging formation of SRHR employee resource groups.

Achievements
- Over 600 female employees reached through wellness campaigns in company SRHR dialogues
- 14 SRHR and GE champions/peers at workplace recruited and trained
- 12 company gatekeepers trained on the importance of GE and SRHR
- 4 labour inspectors and 11 company OSH committee officials trained

Lessons Learnt
- Need to upscale education and training and cultural change sensitization programs
- Need to foster employee engagement and empowerment
- Regularly monitor and evaluate effectiveness of SRHR and GE initiatives in the workplace

Social Media and Communications

Background
RHNK through its youth network utilises social media and other channels to advance SRHR issues by raising awareness, creating a safe and inclusive space for interactive engagement, tailored messaging, utilising compelling visuals to convey SRHR messages, collaborate with like-minded advocates to amplify messages and leveraging on hashtags, trends and conversations related to SRHR.

Achievements
- A total of 9,003,857 people were reached with SRHR information through online media campaigns
- A total of 8 mainstream media houses were engaged on the spread of SRHR information
- Increased subscriptions on RHNK social media platforms i.e. TikTok, Facebook, Twitter, Instagram and LinkedIn

Lessons Learnt
- Targeted education and awareness campaigns key in combating AYSRH stigma
- Using youth-friendly communication strategies and channels empowers empower young people to take control of their SRHR

Nena Na Binti Hotline

Background
Nena Na Binti is a hotline operated by RHNK that seeks to ensure uninterrupted access to comprehensive SRHR information and services by adolescent and young people including key populations, free of stigma and discriminations. Through the toll free line 0800 211 227, RHNK offers a safe space for access to lifesaving SRHR information and services.

Achievements
- A total of 85,802 clients were reached with SRHR information
- A total of 5,695 clients reached through direct calls and referred to healthcare providers for services
- 90% of clients served by the hotline were adolescent and young people

Lessons Learnt
- Hotlines are convenient and maintains privacy and confidentiality
- Hotlines offer a safe space for individuals to discuss their SRHR
- Hotlines empower individuals to make informed decisions about their SRHR
